

FLEX

THE INTELLIGENT PORTABLE DEHUMIDIFIER

Easy plug-n-play installation
Same efficiency at all temperatures
Connection for monitoring via external control systems

Technical specifications

Color	Black
Temperature level range	-10° to +40 °C
Relative humidity level range	10 % to 100 % RH
Capacity	5 L / 24 h
Connection	230 V 1-50 Hz 10 A
Average power	< 400 W
Enclosure	IP63
Air flow	400 m3/h
Fuse	10 A
Dimensions WxHxL	340x650x1060 mm
Weight	20 kg
Noise	65 dB
Filter standard	G4

A FLEX fixed to the wall with a wall mount

The installation is easy and smooth

The only thing you need is an electrical supply and drainage of the condensed water. All dehumidifiers in the FLEX series are self-regulating on relative humidity and you always have full control over the functions in the display.

Smart monitoring of moisture levels via connection

Equipped with a connection, you can easily follow how the moisture level drops from your computer or mobile phone.
